Priorities

Our priority always seems to be addressing the schedule.

The Schedule and Sign-up

The schedule (linked below), available for view on our website, still has room slots unfilled throughout the week. A more assertive campaign of informing the members of the group needs and how and why to participate in service is needed.

The sign-up form, also on the website, has been underutilized. Most offers of service or enquiries about training seem to arrive by email, which is quite welcome.

The Service Support Team

The Co Secretaries still have not involved the Service Support Team effectively. Members are in place yet there have not been any meetings. Email communication is available. We will put more effort into establishing a vibrant Service Support Team.

Service on the 7s

Our Service Sessions are held in a breakout room after the meeting on the 7th, 17th and 27th of each month. They have been well attended and successful. These sessions provide fellowship focused on service. They have the potential to help develop policy and support.

Looking Ahead

We will continue our Service Sessions; confident they offer substantive opportunities for clarity and support.

It may be time to develop a definitive script for the Newcomer Greeter, perhaps a simple paragraph, along with a listing of bullet points that the greeters could touch upon, using their own words.

The What's App phone group for Tech Hosts serves as an emergency contact point, in case there are problems with opening the Zoom room. Additionally, the Communications Secretaries have established a new gmail account which is linked to the Zoom account. All Tech Hosts will have access.
