1. In October, we tracked 2804 views of the website. As mentioned in our last report our tracking plugin stopped working around September 22nd (most likely due to an auto-update). The Jetpack plugin has been re-installed and has been tracking views and site visits since October 14th. So these views are from approximately half of the month. The November data looks to be back on track with what we usually see for the number of site visits. With the information we do have, the highest number of page views in the last 30 days were:

- Our Meeting
- Script and Slides
- Home Page / Archives
- Latest News
- Contact List

Group Conscience Secretary and Service Team email contacts were both changed for the newly elected trusted servants.

In service,
Conrad
